

Data Center Engineer – L2/L3

We are looking for a **Data Center Engineer – L2/L3** with strong hands-on experience in *virtualization, server, storage, migration, and data center solutions*. The candidate will be responsible for implementation, troubleshooting, migration projects, and solution designing for enterprise customers.

Location: Delhi

Key Responsibilities:

- **Manage and troubleshoot physical and virtual server environments at L2/L3 level.**
- **Hands-on experience with VMware / Hyper-V virtualization.**
- **Perform server virtualization, migration, deployment, and consolidation activities.**
- **Manage and troubleshoot servers & storage infrastructure.**
- **Handle VM migration, physical-to-virtual (P2V), virtual-to-virtual (V2V) and related migration activities.**
- **Configure, monitor, and troubleshoot SAN/NAS and storage solutions.**
- **Design and implement data center infrastructure solutions based on customer requirements.**
- **Prepare solution architecture, BOM/BOQ, and technical proposals.**
- **Participate in customer discussions, technical presentations, and solution discussions.**
- **Work closely with the Presales and Sales teams for solution designing and technical support.**
- **Perform installation, configuration, upgrades, optimization, and troubleshooting.**
- **Ensure proper documentation of infrastructure, configurations, and project activities.**
- **Provide L2/L3 technical support and resolve escalated issues.**

Required Skills:

- **Strong knowledge of Virtualization – VMware / Hyper-V.**
- **Good hands-on knowledge of Windows/Linux Servers.**
- **Experience with Enterprise Storage, SAN/NAS and Backup* solutions.**
- **Experience in Data Center migration and implementation projects.**
- **Understanding of HA, DR, clustering, backup and disaster recovery concepts.**
- **Good understanding of Data Center architecture and infrastructure solution designing.**
- **Ability to understand customer requirements and propose suitable technical solutions.**
- **Strong troubleshooting and analytical skills.**
- **Good communication and customer-handling skills.**

Preferred:

- **Experience with enterprise OEM solutions such as Dell, HPE, Lenovo, Cisco, NetApp, Nutanix, VMware, etc.**
- **Relevant certifications in VMware, Microsoft, Server, Storage or Data Center technologies will be an advantage.**
- **Experience working with *System Integrators / Enterprise IT environments preferred.**
